Re: "Deep Learning-based MRS Reconstruction with Artificial Fourier Transform Network (AFT-Net)"

Dear Colleague:

Thank you for submitting an abstract to be considered for presentation at the scientific sessions of the 2024 ISMRM & ISMRT Annual Meeting & Exhibition in Singapore on 04 - 09 May 2024.

I am pleased to inform you that your abstract (title above) has been selected for an in-person oral Power Pitch presentation at the Annual Meeting.The Power Pitch consists of two components: a 2-minute oral presentation and a digital poster presentation. This format is designed to provide the exposure of an oral session combined with the extended discussion of a poster session.

**1. Oral Presentation**

The oral presentations are in rapid-fire format, and the ab stracts (20 in total) will be presented back-to-back without questions. Your oral presentation will be 2 minutes and should capture the essence and salient points of your work, highlighting key innovations/results/outcomes, and offering a preview for your digital poster. Details of your work should be reserved for the digital poster session that follows.

The moderators will announce the title of your abstract, the presenter's name, and primary affiliation during the changeover of speakers. The session moderators will be briefed to be extremely strict about the timing. At 1.5 minutes, an auditory "30 seconds to go" warning will be given, and at 2.0 minutes, a clear "stop" notification will be given. Be sure to practice your talk to ensure that you don't run over time. Your oral presentation is tentatively scheduled for:

Session: Empowering Image Reconstruction with Machine Learning

Day/Date: Monday, 06 May 2024

Session Time: 16:00

Presentations will be given in one of three Power Pitch Theatres on the main convention floor, immediately adjacent to the exhibition hall. At the end of the oral session, the audience will move to the digital poster stations around the sides of the Power Pitch Theatre for the digital poster presentations.

**2. Digital Poster Presentation**

In the second hour of the session, you are asked to present a digital poster presentation of your work, allowing more detail to be included and allowing maximal interaction/discussion. The content of your

oral presentation SHOULD NOT be identical to your digital poster. The digital poster format for power pitch abstracts will be identical to that of other digital posters, with some changes for 2024. Detailed format/upload instructions will be g iven on the meeting website (coming soon).

The tentative schedule will be posted on the ISMRM website at www.ismrm.org/24m/. Program numbers will be assigned in March. Please note that the precise date and time of your presentation may still change, though we will make every effort to avoid a major reallocation. When you arrive at the meeting, however, please verify the time of your session in the official program in case there have been last-minute changes.

Authors who submitted more than one abstract will receive a separate letter indicating the outcome for each submission.

**Stipend Notifications**

Educational, Clinical, New Entrant, and E. K. Zavoisky Stipend applicants should NOT register for the meeting until they have been notified of the status of their stipend application. Notifications of stipend awards will be sent out within the next few weeks.

Please carefully read and follow the session guidelines and detailed presentation in structions, which can be found at the ISMRM meeting website (coming soon). Technical instructions and specifications are included with the session guidelines. In any case, plan to arrive early at the session room to allow yourself an opportunity to meet the moderators and to familiarize yourself with the audio-visual controls.

The meeting Proceedings will be published online only, with the full text of all accepted abstracts available to advance registrants on 19 April 2024. Submission of your work constituted a commitment by the author(s) to present. Unexcused failure to present will jeopardize participation in future ISMRM programs.

For a list of all abstracts accepted for presentation at the Annual Meeting, please go to https://www.ismrm.org/24/accepted_abstracts.pdf.

The deadline for early registration is 04 April 2024. Please visit https://www.ismrm.org/24m/ for more information.

On behalf of the Annual Meeting Program Committee, I thank you in advan ce for your participation in this year's meeting. Our members and attendees look forward to learning more about your work.

Best regards,

Brian Hargreaves, Ph.D.
2024 ISMRM Program Chair
